

Village Voice

Volume 3, Number 2 Supplement, 2010

SPECIAL ISSUE

A number of events have occurred, serious enough to warrant this special supplement to inform, solicit help and obtain collective involvement.

1. Wild things.

Coyotes have again been seen in our complex – even a reported killing of one cat! Coyotes are dangerous, and if spotted you should take evasive action and immediately call Police at 911.

2. Do you know where your kids are after 10:30pm?

The Board has been receiving increasing reports of young adults starting to congregate after 10:30pm in the Pool area and also early in the morning (midnight and after) at the far-east end of our emergency access road. Someone has already caused damage to the pool area and the pool furniture – in one case, a recently purchased lounge chair was bent so badly that it will have to be replaced. The use of these areas as after-hour “party zones” is a callous disregard for adjacent neighbors’ sleep time, the Village’s property, and, not to mention the littering by left-over beer and alcohol containers. Common sense and common courtesy have to be conveyed to these youngsters. We strongly ask the parents (and you know who you are) to get involved and take much needed corrective action. The Board has a number of options to put a stop to the after-hour partying but has elected to hold out for parental involvement. The Board hopes it will not need to revisit this matter again.

3. Scoop the Poop.

The Board has also received a large number of complaints about dogs pooping and owners not picking up after their dogs. Dogs are not at fault as they do what nature intended. Considering that the number of dog owners in the Village has grown exponentially, the problem could easily be exacerbated. Please pick up after your dog! It’s only common sense and common courtesy towards your neighbor. Think of the smell and unfairness of forcing your neighbor to pick up after you! Image what would happen if no one picked up! The Village is but an extension of your home – take pride, **KEEP THE VILLAGE CLEAN!** To all who do pick up after your dog(s), your neighbors thank you.
